How to install Urbango

Wrap the mounting belt around the handlebar of the bike, then pass the belt through the fixed hole.

Choose a suitable hole on the belt and buckle it on the subsequent hook, to fix Urbango securely onto the bar.

Insert mobile phone into silicone holders A and B to secure it.

Power On/Off

- **Power On**

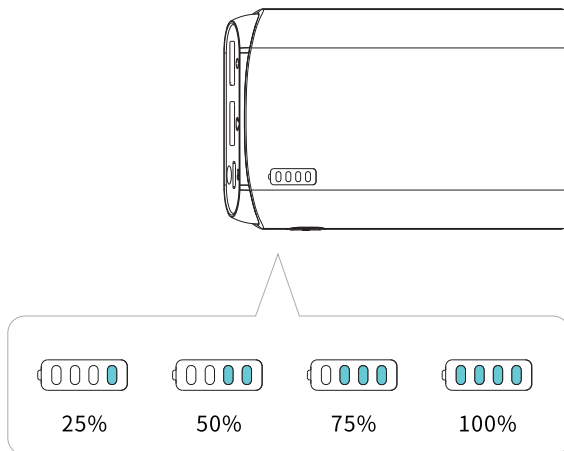

Plug a cable into the USB port and the power bank will automatically switch to wake-up mode and begin charging the device

Press the power button to turn it on when the power bank is in safety protection mode

- **Power Off**

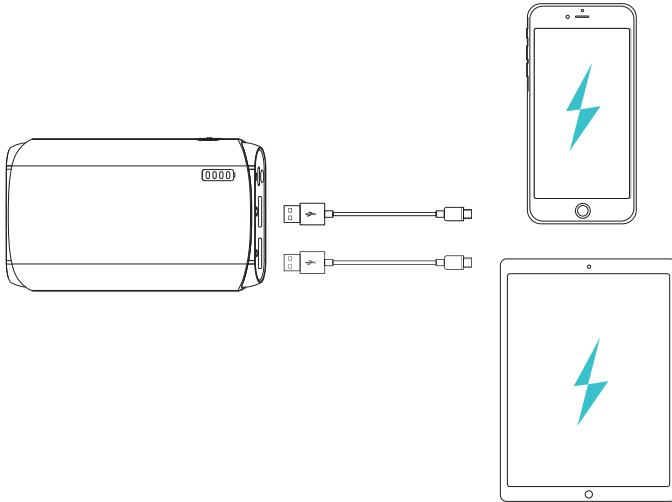

Pull the cable out of the USB port and the power bank will automatically switch into sleep mode

Check the power level
