

Application and Character

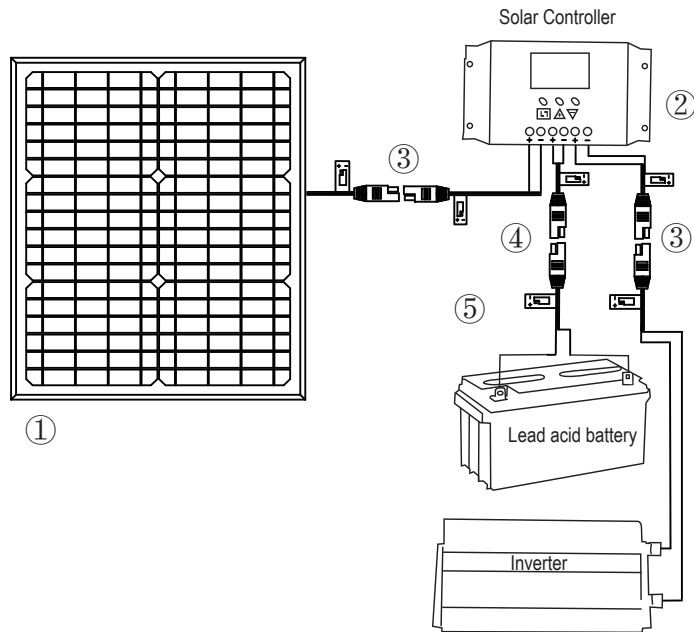

20W Semi Flexible Solar Panel is a multifunctional solar panel, with SAE connector, which can be widely used in the field of Electric Golf Car, Travel Tourism Car, Boat, Yacht, Roof Power Generation, Backpack, Tent, Motorhome, Caravan, Campervan, RV, Lorry, Trailer, or an Off-grid Solar Power System. Especially suitable for anywhere can obtain sunshine, realize high-efficient charging, convenient and safe to use, environmental protection, energy saving.

Specifications

Model: B433	Output Interface: SAE&Alligator Clip
Peak-power: 20W	Color: White&Silver
Efficiency: 20.5%	Waterproof Rate: IP65
Maximum Power Voltage(V): 18V	Dimension: 420*350*17mm
Maximum Power Current(A): 1.11A	Weight: 1.48KG
Voc(V): 21.6V	Peak-power temperature coefficient Pm: -0.45%/°C
Isc(A): 1.19A	Tolerance: ±5%
Maximum system voltage(V): 1000V	Working temperature: -40°C ~ +85°C
Cell type: Mono silicon solar cell	Test standard: Am1.5 25°C 1000W/m²

Easy Installation

Holes on panels are pre-drilled for fast mounting and securing, perfect for non-permanent installations.
Can be affixed by adhesive, grommets or Velcro (with which you can easily attach or detach the panels).
Can be installed without costly structural roof reinforcements.

- ① 1 x 20W Solar Panel
- ② 1 x Solar Controller
- ③ 1 x SAE Cable
- ④ 1 x SAE-to-Alligator Clip Cable
- ⑤ 1 x Alligator Clip for Storage Battery

Inverter and Storage Battery are not included in the package.
